

LIGHTNING

Skills

Place value, mental addition

Materials Needed

- Lightning gameboard
- 2 markers for each player
- Pair of dice with numbers 1 to 6 printed on sides (page 97)

Object of Game

To be the first player to reach 100.

Number of Players

Two

How to Play

1. Each player places one marker at the bottom of each column.
2. Player A rolls the dice and adds up the numbers. Player A moves his/her marker to the correct space in the ones' column. If the sum is beyond nine, the player begins using the marker in the tens' column.

For example: 12 would be 10 and 2.

3. Player B rolls the dice, adds up the numbers and moves.
4. Players alternate turns, rolling the dice, adding the sum to their previous score and moving their markers.
5. The first player to move quickly (like LIGHTNING) and reach 100 is the winner!
