

## Multiplication Mark Off

Use a regular deck of cards to play this game. Let Aces = 1, Jacks = 11, Queens = 12, and Kings = 0.

**Directions:** Each player has 10 markers. At a turn, the player draws two cards and multiplies. If the product is uncovered on the board, the player may capture the spot. The first player to capture 10 spots wins.

12	20	16	40	18	27	64
100	36	4	56	24	30	12
